

GEN. BNJ. HARRISON IS SLOWLY SINKING

THERE IS NO HOPE FOR HIS RECOVERY

Anxious Telegrams from All Over the Country Keep Pouring In.

RELATIVES SENT FOR

The Former President Has Been Unconscious for Many Hours.

HIS DEATH IS NEAR AT HAND

Indianapolis, March 12.—At ten twenty this morning Dr. Jameson says that there was no material change in Benjamin Harrison's condition. He is unable to recognize anyone and his breath comes in short gasps.

Indianapolis, Ind., March 13, 3 a. m.—General Harrison is now unconscious. His condition has been a slow but continual decline since 5 o'clock Tuesday afternoon. He is constantly growing weaker and the congestion continues to spread.

The number of his respirations has increased to a slight extent, but not enough to cause additional alarm to the physicians watching at the bedside. It is apparent to every watcher that the general is fighting for his life. Every breath comes with a struggle.

The doctors are marveling at the wonderful constitution which is able to resist the slowly, but constantly increasing inflammation.

The trained nurses and Drs. Jameson, Hadley and Dorsey are constantly watching for the slightest change either for the worse or better.

Indianapolis, Ind., March 13, 1 a. m.—An ex-President Harrison lay dying tonight his mind wandered, and in his delirium he talked of his old war days; then of his law practice and politics.

The two physicians, Dr. Henry Jameson and Dr. Frank Dorsey, were in the dimly lighted bedchamber over the general's library, where he had spent so many days since his retirement from the presidency, and they silently worked with the cylinder of oxygen, supplying the patient's lungs with the vivifying element.

The general had gradually grown worse since sundown, and the best the physicians could hope to do was to prolong life a few hours, possibly till his son, Russell, his first-born, could arrive from Washington.

Few Visitors Allowed.

There was a constant stream of carriages with callers all day. Those at the Harrison residence are Mrs. Harrison and little daughter Elizabeth, Private Secretary Tobey, Drs. Jameson, Dorsey and Hadley, and a corps of trained nurses.

Children Are Notified.

Colonel Russell Harrison and Mrs. McKee have been advised by wire of the serious turn in the general's condition, and the former wired that he would leave Washington at 1:30 a. m. today for Indianapolis. Mrs. McKee, however, is detained at her home in Saratoga, N. Y., through the illness of her children. It being impossible for her to leave them at this time.

Hope Abandoned Before Noon.

Before noon the doctor dropped his optimistic tone and said that unless a decided change for the better came he could not survive the night. That change had not come at sundown. Every count of the pulse was watched, every slight fraction of the little clinical thermometer was heeded, to see if there might be a faint hope. After a while the bulletins began to take on the stereotyped form of "no change."

GENERAL HARRISON'S CAREER.

Sketch of the Life of the Ex-President or the United States.

Benjamin Harrison, twenty-third president of the United States statesman, lawyer, man of affairs, is the descendant of a family whose name has been written throughout the story of American independence. In the history of the country, from the early struggle for freedom to the days of supremacy as a nation, there stand out three names of the line of Harrison, three men who were important factors in national affairs and attained high eminence. Of these two were presidents of the United States and one a prime mover

and directing agency in the forces which gave America its liberty.—Benjamin Harrison of Virginia, patriot, thrice governor of Virginia, signer of the Declaration of Independence; William Henry Harrison of Ohio, soldier, strategist, ninth president of the United States; Benjamin Harrison of Indiana, lawyer, soldier, statesman, twenty-third president of the United States.

American to the Backbone. Benjamin Harrison, second of the name to win national honor by right of succession due only to ability has been frequently termed the man who was "American to the backbone." He was born in North Bend, O., on Aug. 20, 1833. He was the son of John Scott Harrison who was the son of William Henry Harrison, the ninth president, who was the son of Benjamin Harrison, signer of the Declaration of Independence.

He entered Miami university, Oxford, O., where he graduated at the age of eighteen with a good record. He early gave promise of success and more than held his own in all college contests.

After graduating from college he decided to take up the study of law and was received in the offices of Bellamy S. Storer in Cincinnati.

Enters Political Field.

Mr. Harrison was elected recorder of the supreme court in 1860 and was reelected in 1864. He took to politics like a duck to the water, and became known as one of the most vigorous stump speakers in the west.

His record as a soldier in the civil war will bear the closest inspection.

Won His Promotion.

At Peach Creek he won his promotion. His regiment had charged and lost 250 men in half an hour. His regiment had been ordered in the reserve, but he saw a detachment of Hood's forces coming towards them, and knew that there should be no delay. "Come on boys! We've never been licked and we won't be now!" he shouted and down the tattered lines went on the rebels, Harrison leading them the whole way. The rebels were sharply repulsed and the result was noticed by hot-blooded "Fighting Joe" Hooker.

"I'll have you made a brigadier general for this," he roared as he came up to Harrison ripping out oaths. And "Fighting Joe" was true to his word.

Defeated for Governor.

In 1876 General Harrison became a candidate for governor. He was placed on the ticket during his absence from the state by the state central committee to fill the vacancy left by the death of the regular nominee. The nomination was not desired nor sought, and accepted merely as the sense of duty. He threw himself into the campaign with his accustomed vigor but was defeated by Democratic tactics of questionable character.

In 1888 when the national convention was held in Chicago he was nominated for the presidency and in November he was elected, receiving 233 votes in the electoral college to 158 cast for Grover Cleveland.

Defeated for Second Term.

On June 10, 1892 President Harrison was renominated for the presidency at the republican national convention at Minneapolis. But one ballot was necessary, he receiving 555 1/2 votes; Blaine, 182 1/2; McKinley, 182; Alger 4; Reid 1; Lincoln 1.

He was defeated by Grover Cleveland, the latter receiving 277 votes in the electoral college to 145 for Harrison.

Mrs. Harrison died in the White House in 1892. Of the two children by this union Russell B. Harrison is widely known. He served in the volunteer army during the recent war with Spain. The daughter became Mrs. McKee, the mother of "Baby" McKee.

PARTY HAS BEEN SLUMBERING ON THE TOP OF A POWDER MAGAZINE

A Startling Thing Discovered in Assemblyman Stevens' Corrupt Practice Law—Blow at the Catholic and Lutheran Clergy

Madison, Wis., March 13.—Quite a startling find has been made among the pigeon holes in an assembly committee room. From this discovery it looks as though the republican party has been slumbering on top of a powder magazine, in comparison with which the Bennett law was merely a bunch of firecrackers.

A corrupt practice act is among the bills introduced by Assemblyman Stevens, the father of the Primary Election law.

They Found Something.

Little attention was paid to the bill as corrupt practices acts passed so far have not been a howling success. Having nothing else to do legislators lingering in the capital looked over the bill introduced by Mr. Stevens and found something that they had not expected.

That was a blow at the Roman Catholic and Lutheran clergy that had the bill been passed in its present form, would have undoubtedly have brought on a repetition of the crisis of 1890, when the republican party was wiped out through the now celebrated Bennett law, which had been passed in the hurry of legislation without any one knowing the mass of dynamite it contained.

Danger in Five Words.

The five words, "and temporal or spiritual injury," so deftly concealed

in the center of the section have more danger in them than a room full of dynamite. They evidently refer to the influence which Lutheran clergymen and Roman Catholic priests have over their congregations, and the intent is to prevent them from exercising this influence in politics.

Any such attempt would be certainly resented, and that the Lutherans and Roman Catholics can do more when they are aroused was shown in 1890 in a way that the republican leaders are not apt to forget. Now that the danger is discovered there is no doubt that the dangerous section will be eliminated.

Senator Morse's bill repealing the law requiring state and private banks to pay a fee for the inspection made by the state bank examiner was ordered engrossed without debate. A remonstrance was received from the Ministers' associations of Beloit and Ripon against the passage of the bill allowing the state public school at Sparta to receive infants.

Mr. Barker's bill providing that no divorced persons shall marry within one year of the granting of the decree was recommended to the judiciary committee at the author's request. Three petitions were received for the passage of the primary election bill and one for the passage of the bill to erect a home for the curing of inebriates.

PRESIDENT DIAZ REPORTED INSANE

Mexico's Great Soldier and Statesman Kept in Seclusion, and His Condition a Secret.

Mexico, March 13.—"President Diaz will never rule Mexico again," said a army officer and a close friend of the president, today, "for he is insane and the doctors have no hope of his recovery."

Rumors of a like nature have been rife in the city ever since the president hurriedly left the capital some two months ago without giving any official notice of his departure.

It is now generally believed that he was hurried out of the city by those close to him to keep from the public the fact that his mind was badly affected.

To all suspicion it was given out that he had gone to the wilds of the state of Guerrero on a hunting trip. There were those who remarked that it was strange that the president should go on a hunting trip when he had but recently returned from one. Shortly after the departure of the

presidential party for Guerrero it was whispered that the president was not well. Then came the report that he was dangerously ill, and a few days later it began to be whispered about the city that he was insane.

The president's malady, takes the form of a great dread that some one is going to kill him and he believes that the assassins are hidden in his winter residence here, the castle of Chapultepec.

One of the doctors attendant upon General Diaz said a few days ago that the old man appears quite childish, and that the strong will that made a nation out of a disorganized conglomeration of states peopled by robbers, cut throats and political intriguers, has completely broken down and left the old man as helpless as a child. All that is left of his former strong self is his obstinate refusal to come back to Chapultepec castle.

BIG BATTLE ON THE GREAT WALL

German Troops in China Extricated Themselves from a Perilous Position with Difficulty.

Pekin, March 13.—The recent engagement between a German column and Chinese imperial troops at the great wall was the culmination of operations which lasted several days, in the course of which Colonel Walmeich, with a reconnoitering party of thirty-three men, was nearly surrounded at Lungtau Kwang. He extricated himself with difficulty. Three of the Germans were killed. When Field Marshal Count von Waldersee learned of the situation he ordered reinforcements under Colonel Ledebur from Pao Ting Fu to clear all the passes to the great wall. The Germans attacked Chingshun Pass on March 8 after four days' marching through a mountainous country. They averaged thirty miles a day. The Chinese held an apparently impregnable position on the wall

at the summit of the pass. They numbered several thousand and had a large number of guns. The Bavarian battalion, with two howitzers, led in the attack. The flanking movement was most difficult, owing to the nature of the country, and it occupied seven hours. The Chinese fled into the province of Shan Si after losing a number killed and losing four Hotchkiss guns. One German was wounded.

Germans Guarding Wall Gate.

Berlin, March 13.—Field Marshal Count von Waldersee, in his report of the engagement between the Germans and Chinese imperial troops, says that the latter lost 250 dead when they fled. The German cavalry pursued the Chinese for 200 miles. A battalion will remain at Peking and to the west of the great wall to prevent the Chinese from returning.

COL. BRITTON CALLS ON JANE PEYTON

Miss Jane Peyton of the Otis Skinner company, and known to Milwaukee social circles as Mrs. Robert Curtis Brown, was registered at the Grand during her stay in this city and received quite a number of calls from friends who had known her before she went on the stage. Miss Peyton was delighted at these evidences of remembrance and was very cordial in her greetings. Especially was she pleased to see Col. W. B. Britton, with his granddaughter, Miss Irene Lane, enjoyed a delightful visit with the actress. Col. Britton knew Miss Peyton when she was a little girl in short frocks, and the gracious woman into which the little girl had grown was so overjoyed at seeing her old friend that she scorned the formal hand clasp, and, instead, threw both arms around the colonel's neck and kissed him heartily.

It is safe to say that he enjoys the distinction of being the only Janesville gentleman thus honored.

Quit, Pulpit, Secord Dancing.

Denver, Col., March 13.—The Rev. Robert F. Coyle Sunday surprised the wealthy congregation of the Central Presbyterian church by submitting his resignation. Dr. Coyle said that he found his task was not one, attuned to his ideals of what a Christian life should be and that he could not smile upon many of the iniquities of fashionable life.

To close friends Dr. Coyle said that vine suppers given by members of his church he would not tolerate. Dancing he could not affiliate with fitness for church membership. The sound of rattling silk down the aisles of his church on Sunday morning might represent the kind of cash basis to carry on a big church with pomp and splendor that would dazzle the eye, but it was no lure to him.

WISCONSIN LEAF IS POPULAR

Borden and Company Have a Representative in The City.

J. C. Leverence of Toledo, Ohio, was in the city today in the interest of the well known wholesale cigar firm of Borden & Co. During the year 1899 Borden & Co. sold alone 18,000,000 of the famous John Drew cigars. In the manufacture of these cigars the firm buys considerable Wisconsin grown leaf. Their buyers will this season make heavy purchases in Rock county and vicinity which is evidence enough that the Ohio firm thinks well of the Badger state product.

C. H. Rowan Is Found Guilty.

Milwaukee, Wis., March 13.—Charles H. Rowan, the ex-matrimonial agent, was found guilty of an attempt to bribe United States officials by a jury in the United States court. It is claimed he offered \$2,500 to the officials. Under the law the penalty may be a fine of \$7,500 and three years in the penitentiary.

ANDREW CARNEGIE SAILS FOR EUROPE

Says He Has Only Just Begun Giving Money For Libraries—Will Play Golf in Scotland.

New York, March 13.—Andrew Carnegie and family sailed this morning on the steamship St. Louis for Europe going first to Cannes, France, thence to his castle in Scotland, returning here in October. A large number of friends saw the Carnegie's off and the staterooms were filled with flowers. He was asked if he had any idea how much money he had given to libraries and answered: "Don't ask me for I have only begun to give." He declared that he would put in the most of his time in Scotland in playing golf.

CHARLES H. ROWAN IS FOUND GUILTY

Milwaukee, March 13.—Charles H. Rowan was last night found guilty of attempting to bribe United States officials. The jury returned a verdict at 9:30 o'clock, after deliberating ten and a half hours. The extreme penalty for the offense is a fine of three times the amount alleged to have been offered, and three years in prison. Rowan is alleged to have offered \$2,500 to Inspector Bird and Assistant United States District Attorney Charles Mc. C. Anderson to drop the famous matrimonial bureau case in May, 1899. This would make the greatest penalty possible in this case a fine of \$7,500 and three years in prison.

DEWET TO JOIN BOTHA

Said to Be Hurrying North to Surrender—Would End the War in Africa.

Pretoria, March 13.—Pending the arrival of General Dewet a general armistice has been declared. General Botha has been in conference with Lord Kitchener and Sir Alfred Milner for several days and all three desire to consult Dewet.

Dewet is hurrying north through the Orange River Colony, in obedience to Botha's summons. He passed Bradford last night. On his arrival a conference was held near here.

There is joy today, caused by the hope that the last gun has been fired in the Boer war.

Brussels, March 13.—Dr. Leyds announces that Mr. Kruger will ignore the surrender negotiations between General Botha and Lord Kitchener.

Castellanes Not Aboard.

New York, March 13.—The Count and Countess Boni de Castellane, who were expected to arrive on the steamer Champagne, were not on the list of passengers. Among those who were looking for their arrival was a legal representative of Asher Wertheimer, who has been suing the count for the amount of a large bill for bric-a-brac.

Wertheimer's lawyers, Guggenheimer, Untermyer & Marshall, had a process server at the pier to meet the count and countess and give them a copy of a summons and complaint.

May Go to the Philippines.

New York, March 13.—For the purpose of getting better knowledge of the situation in the Philippines a number of senators and congressmen are contemplating a visit to the islands during the coming summer, says a special to the World from Washington. Among the party will be Senator Bacon of Georgia, Representative Tawney of Minnesota, Cooper of Wisconsin, Madox of Georgia, Gaines of Tennessee, and Henry and Burleson of Texas.

Attache Wheelan Arrives.

New York, March 13.—Col. James N. Wheelan, military attache of the United States legation at The Hague, has arrived here on board the steamer Statendam from Rotterdam.

WOMEN HELP TO MANAGE SCHOOLS

Bill in the Senate to Allow Them to Hold Office.

ELECTION BILL IS UP

Many Amendments Are Proposed to the Stevens Primary Bill.

NEW APPORTIONMENT BILL

Madison, Wis., March 13.—The bill providing for the appointment of one woman on each of the boards of university regents and normal school regents were favorably reported by the senate committee of education and will probably pass.

The assembly advanced to third reading the bill enabling cities of the fourth class to acquire electric light and water works plants.

ASSEMBLY APPORTIONMENT.

Three Districts in Rock County Remain Just the Same.

Madison, Wis., March 13.—The reapportionment of the 100 assembly districts of the state has practically been completed. The two subcommittees appointed last week by Chairman Rlford of the Joint Apportionment committee today took up the redistricting of counties entitled to more than one district. All of the apportionments were practically approved as reported by the subcommittees, and when the joint committee meets they will finally be adopted. The Rock county districts are as follows:

First District—Spring Valley, Rock, Magnolia, Center, Janesville, Union, city of Evansville, Porter, Fulton, village of Edgerton, Milton Lima, 16,902.

Second district—City of Janesville, Harmony, Johnstown, LaPrairie and Bradford, 17,091.

Third district—Plymouth, Ayon, Newark, Beloit, city of Beloit, Turtle, Clinton town and village, 17,210.

PRIMARY ELECTION BILL.

Many Amendments Are Considered by Assembly Committee.

Madison Wis., March 13.—The assembly committee on privileges and elections was battling with the primary election bill all day yesterday, but has made no progress.

The plan of the supporters of the bill is to get the report in by the end of the week, but it does not look today as if the program can be carried out. The committee has been considering amendments but no action has been taken.

The first session of the committee was held in the morning at nine o'clock. Nothing was accomplished beyond a general discussion of the plan for redrafting the bill and for considering amendments. At the sessions in the afternoon and evening Assemblyman Stevens produced the amendments that have been suggested to the committee and which he took in charge and redrafted. None of the amendments affects the principal of the bill. Most are of a technical character and some of them duplicate each other. In all there are said to be about forty amendments before the committee.

Soldiers Try to Run a City.

Helena, Mont., March 13.—To show their displeasure over the abolition of the army canteen seven soldiers from Fort Harrison came to town and tried to run the municipality. As a result of a riot on Main street, six badly battered and bruised soldiers are at the police station. After their arrest they fought in the station, and came near demolishing the old building. They tore the blankets into shreds, made scrap iron out of the old stoves, and demolished the beds.

Francis Joseph at Munich.

Munich, March 12.—Emperor Francis Joseph arrived here this morning to participate in the celebration of the eightieth anniversary of the birth of Prince Luitpold, regent of Bavaria. Prince Luitpold welcomed the emperor at the station and large crowds lined the route to the palace and heartily cheered the royalties as they passed.

Mine Cave-In Wrecks Houses.

Scranton, Pa., March 13.—A serious cave-in of the Spencer mine workings occurred at Dunmore, causing a surface disturbance of over 700 feet long and 100 feet in width. Four residences were wrecked and twisted and no uninhabitable. The mine workings were writhed and twisted and no more work can be done for several days.

GREAT DEMAND FOR TRAINED FARMERS

SHORT COURSE IN AGRICULTURE DOING A GOOD WORK.

Bourke Cochran Will Give the Graduating Address—The Prospects for a Good Base Ball Team at Madison Are Flattering—At Least One Game Will Be Played in This City.

Madison Wis., March 13.—The short course in agriculture which has been in session since the first week in December, will close next Thursday. The three or four hundred young men who attended the course will return to their homes or accept positions secured for them through the influence of the agricultural college.

Large numbers of stock raisers, creamery firms, and agriculturalists apply to the professors of the school of agriculture for young men of such training as will fit them to fill responsible positions. Upwards of two hundred such applications have been received during the past three weeks and about a hundred students have in this way been supplied with good positions.

The graduating class will spend the remainder of this week-end and a part of the next in a stock raising trip throughout the state. While on a trip they will travel in their special car and be in charge of two professors of the agricultural college. About seventy will go on this trip. Among the farms visited will be those of Alex. Galbraith and McWay Bros. in the vicinity of Janesville.

The judging for the Haven gold and silver medals, as been completed and the awarding will be done as soon as the averages can be computed.

The Pabst theatre company of Milwaukee will be here Thursday night to present in German the play Minna von Barnhelm, by the German dramatist Lessing. The company has been secured by the university German society the Germanistische Gesellschaft of which the leading members are faculty of the German department. This is the third year that this society has secured a German play for Madison and the event is now looked upon as an annual one and looked forward to with great interest.

Bourke Cochran Coming.

Bourke Cochran, the well-known anti-imperialist republican orator has been secured to give the graduating address before the senior law class next year. The senior law address is always of extraordinary interest. Last year David J. Brewer of the U. S. Supreme court was secured.

Good Baseball Prospects.

Coach Phil King has nearly fifty candidates trying for this year's Varsity baseball team. Daily practice in fielding and batting is being held in baseball cage in the gymnasium. Prospects for a winning team are excellent. Nearly all the old men are back and an abundance of new material of good promise has appeared. The pitching staff will be especially strong. Six twirlers of Varsity form are now trying for the slab position.

Twenty games have been arranged for this season, ten of which will be played here. Three games will be played with Beloit, the last one at Janesville on Decoration Day. The Janesville game is apt to be the rubber of the series.

Beloit college has asked Wisconsin for a dual track meet to be held at the Line City on April 20. The offer will probably be accepted as Coach Kilpatrick has some new men which he wishes to give as much practice as possible before the intercollegiate meet in June. Beloit has some very strong track athletes this year and the meet if held will be no walk away for the cardinal.

AMUSEMENT NOTES

It is easy to understand why it was that the Rounders was able to please the blasé theatregoers of New York to such an extent that, for 200 successive nights, they bestowed upon it a patronage liberal enough to make its long stay profitable to those most vitally interested in its financial success. The book is full of dialogue that fairly scintillates with bright lines and witty mots, the lyrics are unctuously humorous, and the music to which Mr. Englander has set them is characterized by dainty, rippling melodies, and rich and sonorous harmonies. Ordinarily these would be enough to make success certain and in a city where the appetites of the habitues of the playhouse are less

laded than those to be found in America's great playhouse no further paludum would be needed.

It is evident, however, that Harry B. Smith, the author of the book, was prescient enough to see that something more than bright dialogue and tuneful music was needed. He has supplied the necessary condiments with a lavish and oftentimes what seems to be almost a reckless hand. Viewed from the standpoint of the purist, the piece verges at times dangerously near the risqué.—St. Paul Globe.

The play will be given at the Grand tomorrow night.

The chief interest to the large and representative audience gathered at the opera house last night was the appearance of Jane Peyton as Countess von Rosen in Otis Skinner's "Princess Otto." Jane Peyton is Mrs. Dr. C. M. Brown, a well known Milwaukee society woman, who left her home to seek fortune and fame upon the stage. She is undoubtedly a very handsome, stylish and intelligent woman; but she is still somewhat amateurish in her acting. This will no doubt wear off in time with practice, and Jane Peyton, if she keeps her health and strength, may be counted upon to be in the first rank of emotional actresses. She has a commanding and pleasing stage presence, and acquitted herself handsomely in her part last night. Mr. Skinner and his wife, Maud Durbin, in the leading roles, were good as usual, and received repeated curtain calls. The rest of the cast was of a high standard. The big audience was immensely pleased with the performance.

Letter from Superintendent Harvey.

The board of education has received a letter from State Superintendent Harvey, urging the board to take action and use its influence for the passage of an important educational bill which has been introduced in the state assembly. The bill, briefly stated, provides that wherever the city's public schools are sufficiently large to accommodate more pupils than the city provides, the doors shall be open to students from the surrounding country, and that the tuition fees for these country students shall be taxed to the township from which they come instead of the individuals, as is now the custom. The act makes no difference with the city's revenue, but requires the country to educate its children by general taxation. Its aim is to encourage and aid the young people of the rural districts in securing a high school education.

Home-Seekers' Excursions.

On the first and third Tuesdays of each month the Chicago, Milwaukee & St. Paul railway will sell round trip excursion tickets from Chicago, Milwaukee and other points on its line to a great many points in South Dakota, North Dakota and other Western and Northwestern states, at about one fare. Take a trip west and see the wonderful crops and what an amount of good land can be purchased for a little money. Further information as to rates, routes, prices of farm lands, etc., may be obtained by addressing F. A. Miller, General Passenger Agent, Chicago, Ill.

Will Have Congregational Church.

The use of the Congregational church has been granted to the Wisconsin W. C. T. U. for its convention which will be held in this city May 21, 22, 23. Mrs. L. M. N. Stevens, the national president, will give one of the evening lectures, and Mrs. Mary H. Hunt, Boston, will give the other. Mrs. Hunt has a world-wide as well as a national reputation, as the author and promoter of the "Scientific Temperance Instruction Law."

May Change Brooklyn Bridge.

New York, March 13.—The Brooklyn bridge authorities are contemplating the entire remodeling of the bridge in order to allow of the manipulation of the elevated bridge trains. The cost, it is said, will be upward of \$1,000,000, and the capacity of the elevated tracks will be doubled. The improvements, if decided on, will require a year's time to complete.

BELOIT CLUB SENDS A WARM GREETING

THE TWILIGHT CLUB RETURNS THE COMPLIMENT.

Final Session of the Local Society at the Myers House Last Night—Various Papers Read and Discussed—Program for the Next Meeting is Being Arranged.

However bitter may be Beloit's feeling against Janesville in the matter of the interurban electric railway the members of the recently organized Twilight club of that city have only kindly regards and gratitude for their father club, the Twilight club of Janesville. As a rule the meetings of the two societies are held on different evenings so as to give opportunity for visiting each other, but last evening the two meetings chanced to fall together.

Beloit took advantage of this fact and sent a telegram of greeting to the Twilighters in session in this city. The telegram was highly complimentary and stated that the entire club of Beloit was standing in respect as the greetings were being sent.

The telegram was received with pleasure and to T. S. Nolan, was intrusted the duty of voicing the local club's appreciation of the kindly courtesy. This Mr. Nolan did by letter this morning.

Last Regular Meeting.

The session of the Twilight club held at the Hotel Myers last evening was the last regular meeting of the year for which arrangements have been made. It was voted to follow the precedent of former years and close the year's study with a banquet at which the ladies will be invited guests. The banquet will be held on Tuesday evening, April 9, and W. S. Jeffris will be the leader. The subject chosen for study will be "Civic Aesthetics," a most timely topic and one suggested by the erection of three costly buildings for the public good, the new post office, the library, and the Chicago, Milwaukee & St. Paul passenger depot.

T. S. Nolan, Stanley B. Smith and D. D. Mayne were chosen as a committee to make all necessary arrangements for the club's work next year.

Supt. Mayne Was Leader.

Supt. D. D. Mayne was the leader at last evening's session which was one of especial profit in that the presentation of the various topics brought out eager and prolonged discussion. This was particularly noteworthy from the fact that the topics chosen under the subject Modern Science were in the main abstruse. Much credit is due last evening's speakers for presenting their topics in such a manner that general interest was aroused.

Walter Helms opened the program with a complete and very lucid explanation of the storage battery and its various parts. He used a battery in illustration and emphasized the fact that he utility of the storage battery would be greatly increased if it were not so heavy. If Edison's announcement that he has found a lighter material than lead for its construction proves true it will prove of great value to the industrial world.

An Address on Ether.

Prof. John Arbuthnot provoked the most interesting discussion by his talk on ether. Not he ether known to the world of medicine, but that illusive, indefinable something which is neither liquid nor solid, which can neither be seen nor felt and yet the necessary quality existing in the material world and occupies all space between the planets. It is necessary for the transference of light and

There is a better blood purifier than Dr. Pierce's Golden Medical Discovery. It cures eruptions, pimples, eczema, rheumatism and other diseases caused by an impure condition of the blood. It cures absolutely and altogether by cleansing the blood from the poisons which breed and feed disease.

Accept no substitute for the "Discovery." There is no other medicine "just as good" for the blood.

"I will forever thank you for advising me to take Dr. Pierce's Golden Medical Discovery," writes Mrs. James Murphy, of Canada. "I have been afflicted with chronic eczema of twelve years standing. I also had chronic diarrhea for twelve years. I am in good health now—better than ever was in my life, owing to Dr. Pierce's Golden Medical Discovery. I took several bottles of the 'Discovery' before I stopped."

Dr. Pierce's Common Sense Medical Adviser, containing 1008 pages, and over 700 illustrations, is sent free on receipt of stamps to defray expense of mailing only. Send 21 one-cent stamps for the book in paper cover, or 31 cents for the book in cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

travels 186,000 miles a second. Prof. Arbuthnot then gave an illustrative experiment with a radiometer.

Phillip Corst explained the principle of the Nernst light, a recent invention and the cheapest electric light known. His talk was also illustrated and was very interesting.

On the Planet Mars.
"Conditions in the Planet Mars," was ably handled by Prof. George Dudley with the aid of some very fine charts. These charts illustrated the knowledge that has been gained concerning Mars through the telescope and from the regular arrangement of the lines. Prof. Dudley argued that Mars is very probably inhabited. M. O. Mouat and others took exceptions to this theory and quite a lively debate ensued.

Perhaps the greatest interest was taken in Dr. S. B. Buckmaster's explanation of the "Localization of the Sensory and Motor Areas of the Brain," illustrated by charts. He showed how different positions of the brain have different functions, one section having control of the movements of the body, another being affected only by sight, etc.

This knowledge of the brain is of the utmost value to the physician for through it they can tell what part of the brain is affected by knowing what part of the body suffers in sympathy.

The Work of the Mosquito.
"The work of the mosquito in Yellow fever and Malaria" was treated by Dr. George Fifield who said that the spotted, winged mosquito is a veritable hot bed for these diseases.

Once one of the insects has stung an infected person the poison is so nourished by the mosquito that he carries the disease to every person whom he subsequently stings. The blood of a yellow fever patient may be injected into a well person with impunity but disease is sure to follow the infected mosquito.

The Babcock milk test, Mr. Babcock's generous gift to the world, was explained by Prof. Brace. The milk test is used in all creameries to determine the value and percentage of butter fat. Milk is now bought by quantity as determined by this test.

NORTH JOHNSTOWN.

North Johnstown, March 12—Grandma Shumway, as she was familiarly known, died very suddenly about half past six o'clock Sunday morning of neuralgia of the heart. She had been about the house as usual the day previous and her sudden death gave her family and friends a great shock.

Mrs. Laura Shumway, widow of the late Elijah Shumway, was born in the state of New York Nov. 17, 1821, and died at her home in Johnstown March 10, 1901, at the advanced age of 79 years, 3 months and 21 days. Her early

life was spent in her native state. In the year 1844, she, with her husband, emigrated to Wisconsin, and settled on a farm in North Johnstown, where she has ever since resided. She was converted in early life and was for many years a consistent member of the Congregational church. She was the mother of six children, six of whom are living to mourn her loss, besides a number of grandchildren and other relatives, by whom she will be sadly missed. She was possessed of a cheerful and kindly disposition, was a good neighbor and universally beloved and esteemed by all who knew her, and the entire community will feel her loss. Funeral services were held at the house Tuesday afternoon, Rev. A. Longfield officiating. The interment was in the cemetery in this place.

Mrs. Anna Longfield is better.

Going to Build

Whether you contemplate building at an early date or in a year or two, have a copy of "BAKER'S TWENTY-THIRD CENTURY HOMES." It is the most complete book of Architectural Designs published.

Nearly 150 pages, printed on heavy enamel paper. It is not a theoretical book. Every design shown is from the actual working plans of buildings that have been erected under the direction of our supervising architect. Consequently it is practical in every respect.

It embraces subjects from an attractive cottage at a few hundred dollars to a modern, up-to-date residence, costing many thousands of dollars.

The perspective and half-page illustrations while the floor plans are half-page sketches.

The descriptions are complete and easily understood. In fact it is an ideal book of practical, up-to-date designs and intelligent descriptions.

The regular price is \$2.00 but we would like to send you a copy free of charge. If you could call at our office we would take pleasure in presenting you a copy free of charge. As this is not possible, we will send you a copy by express, charge prepaid upon receipt of only \$2.00, to cover cost of transportation.

SAVES LIFE

Willard, Ill., August 1, 1900. I was in bad health this spring and could not sit up in bed for four weeks. When I was out of bed my child died. When I began to sit up I felt so weak and had such terrible pains in my back and hips. I had kidney trouble and falling of the womb. I also had hysterical spells. I was in a bad condition when I received your "Ladies' Birthday Almanac" and read the advertisement of Wine of Cardui and Theodore's Black-Draught. Since April 25th, I have taken four bottles of Wine of Cardui and three packages of Theodore's Black-Draught. I feel like a new person now. I can do all my work and can walk out to see any of my neighbors. I believe I would have been in the grave had it not been for Wine of Cardui. IT SAVED MY LIFE.

It is well that women are more patient than men. Few men could bear the bitter pangs, the agony and distress that women endure. Thousands of women have come to look upon suffering as a duty of their sex. But there are many instances of this heroic fortitude which

WINE OF CARDUI

now renders unnecessary. Women need no longer suffer for modesty's sake. Wine of Cardui brings relief to modest women in the privacy of their homes. Many of the best homes in this city are never without this great medicine. It cures whites and falling of the womb and completely eradicates these dragging periodical pains. Mrs. Davis' cure shows you conclusively what you may expect if you follow her example and take Wine of Cardui. Theodore's Black-Draught aids Wine of Cardui by regulating the stomach and bowels. When you ask your druggist for these medicines, be sure you get them. It was Wine of Cardui and Theodore's Black-Draught that saved Mrs. Davis' life. Never take a substitute.

For advice and literature, address, giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Company, Chattanooga, Tenn.

Omega Oil

Most liniments burn and blister the tender skin of a child, but Omega Oil doesn't.

It is the safest thing a mother can rub on her little boy or girl for a sprain, bruise, sore throat or cold in the chest. Please remember this, mothers, and always have a bottle of Omega Oil in the house. It will cure the aches and pains of the entire family, and relieve a great amount of suffering every year. It is good for everything a liniment ought to be good for.

If your dealer refuses to supply you with this wonderful Swiss green liniment, the Omega Chemical Co., 55 Broadway, New York, will mail you a bottle prepaid for rec. in cash, money order or stamps.

EDUCATED PESSIMISTS.

President Hadley of Yale would be accused of suffering from indigestion were he anything but a college president. His sense of vision is so acute that by looking into the future twenty-five years he is able to discover a throne in Washington, occupied by an emperor. President Hadley delivered a lecture at the old South church in Boston last Sunday evening on the "Development of a Public Conscience." He started his audience by saying, "We shall have an empire in Washington within twenty-five years, unless we can create a public sentiment which will demand the control of trusts."

Of course that settles the question, for "Yale" is nothing if not wise. And yet people will go right on doing business and forming combinations for mutual help and protection, just the same as though President Hadley was in business for himself, instead of drawing a salary and assuming to know all about how other people should do business.

President Hadley is undoubtedly a great educator along theoretical lines. If he teaches as well as he talks he will succeed in turning out a lot of theoretical young men, that will need a trust or something else substantial to lean on, before they are able to stand alone. This sort of nonsense is on a par with the free silver and anti-expansion heresies, during the past few years. It amounts to a species of disloyalty and un-Americanism, that has no place on American soil and ought not to be tolerated in institutions of learning.

The trouble with the average writer and thinker, on political economy is, that he attempts to dovetail fine spun theories into hard cold facts, and the effort is always demoralizing to the theory.

The business world is a self-educated world. Its knowledge is intense ly practical, and it is long on knowledge. Its text book is the well worn volume of high priced knowledge.

Its text book is well worn volume of high priced experience. Its covers are worn, and its pages soiled with ear marks, but it is a book of ready reference, and always reliable. A little advice from a disciple of this practical school is worth more to the average young man in business, than all the text books on political economy that were ever written.

President Hadley and men of like faith, consult all of their theories, and fall to find a chapter on trusts, that isn't labeled "dangerous," and so they sound the note of alarm.

What they need is a little of the rough and tumble of life, deprived of all sentiment. A little wholesome competition in the marts of trade, where the survival of the fittest is the only law that governs. If they can stand the strain for a few years, they may be able to give advice to such men as Rockefeller, Morgan, Carnegie, and a host of others, who are doing more for the development and advancement of the country in a single year than all the croakers will accomplish in a generation.

The business world is not afraid of trusts, and it has everything at stake. The college world can afford to take a few chances, so long as it has nothing invested but a theory. President Hadley may be able to find a job after his empire is established.

THE LIBRARY LOCATION.

There should be no unseemly scramble over the location of a site for the new library building. It is just a little humiliating to the average intelligent citizen, when he stops to think the matter over candidly, that a city, out of debt, and well to do, should place itself in the position of a suppliant, and ask from on outside the money to erect a building. But that is what we have done, and the money is generously forthcoming. Under the circumstances, it is due Mr. Carnegie that the donation be handled decently and in order. There is no east and west Janesville, but simply one compact city, with a river that formerly wound its way through the center of it, but so thoroughly covered with buildings now, that a stranger is not aware of its presence. This discussion of east and west side interests is disgusting. The whole city is interested in having the library building centrally located, where it will be easy of access. There are a number of good locations, any one of which would be acceptable. If the city is to buy the property, and it is competent to do so, let the council appoint a disinterested committee of citizens to select the site. If they can't be found in the city, go out in the country and pick up three good intelligent farmers. Whatever we do, let's not engage in an east and west side contest. That's too much of a chestnut to digest comfortably.

Populists in several of the state legislatures are trying to kill off all

the successful enterprises; break legislation is bad enough, but never can do the harm which results from nine tenths of the bills proposed by populist law makers.

"GREETED WITH LAUGHTER."

The legislature of the state of Washington recently passed a bill that attempted to bar osteopathy from the state. When the bill went to Governor Rogers he vetoed it, and scored the doctors unmercifully for attempting to deprive intelligent people of the benefits of the new science. When the governor's veto message was read before the legislature, it was greeted with laughter. The Daily Ledger of Tacoma makes the following comment:

"It is said that the veto message of the governor, placing the stamp of disapproval on the bill for regulation of the practice of medicine was 'greeted with laughter.' If it was the circumstance did not argue well for the intelligence of the legislature.

"The bill was unfair. It was directed against a class of practitioners known as Osteopaths. These men make certain claims for themselves. They do not ask the patronage of people who do not believe in them. The intelligent public has a right to discriminate, and it has the right to call in an allopath, a homeopath, an osteopath, or any other sort of a 'path'.

"The medical profession in seeking the enactment of this measure had in view, not the welfare of the patients, but its own welfare, and no profession—least of all the noble profession of healing—has an excuse for shielding itself behind a special law. Other professions have to take their chances and the statutes offer no preventive. There is the shyster lawyer, the bogus preacher, the fraudulent journalist. All these to a certain extent prey upon society, and the individual has his remedy in the courts. The doctors cannot consistently ask more.

"If the bill had been directed against ignorant 'healers,' the faith cure pretenders, there would have been some excuse for it, but it was designed to cut off from the privilege of practicing an intelligent set of men who have to a certain extent impaired the incomes of the regular schools of medicine. The science of healing has got in a bad way if it cannot stand on its own merits."

The governor was right, and the paper is right in defending him. The Wisconsin legislature may run up against a similar proposition in Governor LaFollette. He will be justified, if occasion demands, in protecting by veto power the interests of Osteopathy, and the people, outside of the doctors, will sustain him. Many broad minded physicians already recognize the merits of the new science and endorse it. A petition from Portage for the Osteopathic bill now pending, contained the names of six druggists and two physicians. The science has come to stay, and Wisconsin cannot prevent it by adverse legislation.

PERSONAL POPULARITY.

It requires more than personal popularity, to popularize a doubtful measure. Governor LaFollette possesses the elements of a popular leader. During the three campaigns that he conducted in the state, he had a following of staunch friends that were the embodiment of loyalty. In the last campaign he was doubtless deceived, by mistaking a disposition for harmony for personal enthusiasm, which may have caused him to believe that his former opponents had all at once become his personal admirers. While this was not true, there was exhibited a commendable disposition. He was the successful candidate of the republican party, and as such was entitled to the loyal support accorded.

It does not follow however that because of this fact, the party as a party, should endorse all of his measures, simply to please him. Men may have great admiration for the personal worth of a fellow man, and may delight to honor him as occasion offers, but the man is one thing, while his measures if not popular, are a different proposition entirely. There are a great many good republicans, who like Governor LaFollette who do not endorse his primary election law. Quite a large class of these men are his old time admirers. They feel that a mistake has been made, and placing party welfare ahead of personal feelings, they honestly oppose the measure.

The governor possesses too much good sense to misjudge the motives of these men, and whatever may be the fate of the proposed law, he realizes that the will of the people is supreme. While there may be some disappointment, there will be no occasion for bitterness, if good judgment prevails.

PRESS LOYALTY.

The Chicago Tribune, with its old time mugwump tendencies, decides that while John Harlan was the choice of the Civic Federation and other reformers, that Judge Haney is a better man for mayor of Chicago than Carter Harrison, and reluctantly advises people to vote for him.

What the republican party of Chicago needs more than any other thing is a loyal party press. The

Tribune and Herald, both posing as republican papers, and unworthy of the name, the party would be stronger if both of them were Democratic. This clap-trap talk about independent journalism, is the veriest nonsense. The people of this great commonwealth are pretty evenly divided on political questions, and it would be better for the country, on state and national issues, if party lines were more closely drawn.

The secular press of the country, if it amounts to anything as a political influence, must either be one thing or the other. The independent voter, like the independent church member who gets too good for his church, is a man without political influence, because his energies are scattered and wasted, and the independent press enjoys the same distinction.

When a paper forsakes its party and goes out looking for good men to head an independent movement in the interests of reform, it ought to go one step further and join the prohibition or populist parties, and devote all of its energies to reform measures.

The two great parties that represent the rank and file of the votes of the country, respect party loyalty, and they respect it just as much in the press as in the individual. There are rare exceptions, like the silver issue that captured the democratic party four years ago, and demoralized it in the last campaign, but these are single incidents of a life time, and the papers that refused to become infatuated are still the most loyal friends that democracy has.

The Chicago papers mentioned are disloyal, not on account of an issue, for they are never looking for that, but because they put the man ahead of the party, forgetting that the party and not the man is the vital issue. Judge Haney is a better republican than John Harlan, and in every respect as good a man. The Tribune and the Herald can afford to give the party better support than they seem inclined to do. Their only grievance is disappointment, and the people are not in sympathy.

The spiritualistic message claimed to have been received from Ingersoll was dated "Heaven."

SUDDEN DEATH OF MICHAEL J. CONROY

Michael J. Conroy, one of Janesville's well known young men and a member of the city police force, passed away at eight o'clock this morning at his home, 5 South Academy street, after an extended illness. He was taken sick last September with consumption of the bowels and for the last six weeks was confined to his bed.

He was born in Janesville in 1869 and spent the greater portion of his life in this city. During his lifetime he had made many warm friends and was well liked by all who knew him. He was a charter member of the Degree of Honor, No. 2, and was also a member of Olive Branch Lodge No. 36 and carried insurance in that order. He leaves surviving him a broken hearted widow and two brothers, Edward of this city and James F. of Milwaukee. The funeral will be held from the home, 5 Academy street, Friday morning at 9 o'clock and from St Patrick's church at 9:30 o'clock. The interment will be at Mt. Olivet cemetery.

MAUDE GONNE TONIGHT.

The lecture by Maude Gonne at the Myers Grand this evening will be an event of more than the usual interest, and all those who like to hear a good speaker speak on timely subjects should hear her. She will be accompanied by Major McBride.

NEW FAST LINE VIA. JANESVILLE

Milwaukee Road Will Use
Janesville & Southeastern
when Completed.

TO PUT ON FAST TRAIN

This City Will Then Be on
Main Line Between Chi-
cago and St. Paul.

WHAT THE CHANGE MEANS

A new Milwaukee road station will not be the only change that will be noticed by the citizens of Janesville when spring opens up and the work on the Janesville and Southeastern railroad is completed. Changes that will be of as much importance to this city as a new passenger station would be are now contemplated by the railroad company. Chicago papers are authority for the subject that the Milwaukee road is said to be arranging an important change in the routing of its fast trains out of Chicago. Its plan calls for most, if not all, through trains to be operated by way of the Fox-Lake Janesville line, which is now undergoing the finishing touches of the constructionists, instead of by the way of Western Union Junction as at present.

Under the existing conditions the St. Paul fast trains cover the distance between Chicago and Delavan, Wis.,—100 miles—in about three hours. By running the trains by the way of Fox Lake the time can be reduced an hour, the distance being about thirty miles less.

The importance of these changes should not be underestimated by the people of this city. It means that the number of trains between this city and Chicago will be doubled, and the through St. Paul trains will be run this way, putting Janesville on two main lines to St. Paul instead of one as at present.

These changes are liable to make it a division headquarters which will bring a large number of families to this city.

The mystery surrounding the purchase of the North Main street property still remains unsolved. The purchasers are still inclined to keep the objects for which the property was purchased in the dark. Whether or not this property is to be used in connection with the Milwaukee road as many think it will be, remains to be seen. The parties owning the buildings on this property have been notified by the owners to get them March 20.

This would seem as if the owners had the plans all laid as to what use the property is to be put to, and are anxious to begin work on it as soon as the frost is out of the ground.

The railroad company may not have anything to do with this deal, but it is thought by many that they are the ones for whom the property was purchased.

Many people residing in the blocks between Prospect avenue and the railroad tracks have been approached and asked to put a price on their lots. It looks as if some company with an object in view was trying to get control of all this property. That the railroads have made offers is well known, but what they want of the land remains to be seen. A fine passenger station would be a great improvement to this part of the town and many people are of the opinion that this is what the property will be used for.

Contracts are being let today for the removal of all buildings on North Main street from the Windsor Hotel to Jones' tobacco warehouse and also for the two buildings on the property purchased from the Farmers estate in the rear of the warehouse.

There is a well founded rumor that the property will be used for the erection of an immense freight depot by the Chicago, Milwaukee & St. Paul railroad.

MISS MAUDE GONNE AND CAPT. M'BRIDE

Miss Maude Gonne, the Irish Joan of Arc, and Captain McBride, who are to plead Ireland's cause at the Myers Grand tonight, arrived in the city this afternoon at 2:30 from Milwaukee, and were met at the depot by Dr. and Mrs. M. A. Cunningham and James Sennett, serving for Division No. 1, A. O. H. The two noted lecturers are registered at the Hotel Myers.

Miss Gonne is a woman of striking appearance and charming personality. She is very tall, and has a beautiful face, in which the serious brown eyes light up bewitchingly. She is gracious in manner, and was very much pleased to find her room at the hotel beautified with roses and pink and white carnations, the gift of the society under whose auspices she appears tonight. Miss Gonne appreciated the thoughtful attention thoroughly.

CHARLES H. STOLLER

SEVERELY INJURED

NO BONES BROKEN, BUT HIS
SPINE WAS HURT.

The Wreck at Arlington Heights Was One of the Worst That Has Occurred on the Northwestern Road for Some Time—Two Were Killed, and Many Others Injured.

Late reports from Charles H. Stoller who was badly injured in the freight wreck at Arlington Heights on Monday night say that no bones were broken but that he sustained severe injuries to his spine. He is now in St. Luke's hospital at Chicago, where he is receiving the best of care. His father, Charles Stoller, left for Chicago yesterday morning to do what he could assist his son.

The wreck is one of the worst that has occurred on the Northwestern between this city and Chicago in a long time. The wreck occurred at 4:30 o'clock in the morning.

Nine stockmen were in the caboose and two of them were killed and four of the others seriously injured. The stock cars were broken up and set on fire, roasting many of the animals in the wreckage. The rest were liberated and ran at will all over the town.

The dead are Otto Schmidt of Palatine, Ill., and August Buck of Johnson's Creek. The injured were Chas. H. Stoller, Janesville; Albert Milbratz, Arlington Heights; James F. Wilson of Fort Atkinson; G. W. Worthington of Oak Center, Wis.; Ed. Webber Richmond Wis.; W. H. Stevens, Sharon, Wis.; J. Rush and H. Johnson, members of the crew and J. W. Worthy of Oak Center, Wis..

In the caboose were quartered the stockmen. Six of them were sleeping and the others were talking. The brakemen, J. Bush and Johnson, were working among the cars. Without any warning the engine of the freight train crashed into the caboose, completely destroying it. The stockmen were pinioned in the wreckage so that they could not extricate themselves, and in a minute the fire from the stove had spread to the splinters. Bush and Johnson were caught between the cars, and crushed.

The caboose was completely wrecked, and the wreckage set on fire from the stove. In the early morning no one was around the railroad tracks except the train crews.

One of the stockmen managed to escape and ran to the nearest house and secured aid to help his companions. The local fire department was called out and succeeded in extinguishing the flames in the wreckage.

The neighboring houses were turned into hospitals. The local doctors assisted by doctors from Chicago, who were sent by officials as soon as the accident was reported, had all that they could do to allay the sufferings of the wounded.

The high school medal contests

Results of the First Contest Preliminary to the Annual High School Medal Contests

Members of the freshman class held the first contest preliminary to the annual high school medal contests at the high school building after the regular afternoon session yesterday. The program included the contests in declamation and extemporaneous speaking.

Mrs. Frances Whitaker was in charge and a large number of students remained to hear the various speakers.

Miss Emma Paulson, Prof. John Arbuthnot and Prof. C. C. Cance officiated as judges and they were unanimous in their choice of the successful contestants.

As a result of their decision Hattie Decker, Daisy MacLean and Frank Fisher will represent the freshman class in the school contest which precedes the medal contest. Russell Zeininger, John Roherty and Roy Ayres will be the freshmen extemporaneous speakers.

Those who appeared in yesterday's contest had been chosen by the various sections of the class and although it was their first appearance in contest work they did remarkably well, each contestant doing very creditable work.

The following was the program:

Declamations.
"Knee Deep in June".....Floy Scofield
"Prior to Miss Belle's Appearance".....Coranire Shoemaker
"Prior to Miss Belle's Appearance".....Daisy MacLean
"Anat Tabetha".....Dorothy Collins

SUSEMEHL BUSY

WITH THE FARMERS

TOBACCO WORST THING HE HAS TO CONTEND WITH.

Grangers Hesitate To Give Up a Crop That They Have Made Money At—But Canning Factory Product Does Not Interfere with the Raising of Tobacco.

Mr. Susemehl of the canning company is a busy man these days. Each day when the weather will permit he makes a trip into the country, and interviews the farmers along the different lines of road. He has succeeded in placing quite a number of contracts for acreage.

Tobacco seems to be the worst thing that he has to contend with. The farmers almost to a unit say that they have made money in raising tobacco and don't wish to take up anything which will interfere with their tobacco interests. They also claim that there is no garden truck that they can raise that will begin to pay them as much as tobacco. The canning factory men admit that this may be true but that the farmers do not take many things into consideration when they make the estimate.

With tobacco it is an uncertainty from the time that the crop is planted until it has passed over the table of the dealer. "Any little thing is liable to ruin the crop and take away all chance of getting a good price for the goods.

The products raised for the canning factory do not interfere with the raising of tobacco. No extra shed or building room is required and after the crop is harvested and hauled to the factory the responsibility of the grower is at an end.

P. Hohenadte & Co. who are abundantly able to carry out all the provisions of their contracts and any farmer that is at all skeptical about their financial standing can get the best of references by calling on any of the prominent merchants in the city.

It is absolutely necessary that the acreage be secured before any further move is made in the erection of the factory. They are entirely dependent upon the farmers for produce to operate the factory and would lose all of the money they had invested if they put up their works without first securing the acreage.

The farmers of the surrounding country have the city's interests at heart and if it can be shown them by the agents of the company that it is to their interest and to the city's interest for them to raise these crops there will be no trouble in securing acreage. Mr. Susemehl is loud in his praises of Rock county farms. He says that he has ridden over all parts of this state and Iowa, but says that he has never seen any farms that are ahead of those about Janesville.

Those celebrated Douglas shoes for men at \$3 and \$3.50 are worth every penny of the price. We sell and recommend them. Brown Bros.

DOINGS OF THE LAW MAKERS.

ILLINOIS.

Tuesday, March 12.

Representative Robert G. Hammond in the house introduced a bill for the protection of discharged employees by providing against the system of blacklisting and all other methods whereby workers might be debarr'd from obtaining other employment. This portion of the bill, which is believed, would be unavailing, is rendered important by the third section of the measure, which provides that every employee, whether of person or corporation, upon discharge shall be given a written cause of discharge showing the reason for such action and providing penalties for the refusal to give such written cause or, having given it, to use it to the detriment of the employee.

INDIANA.

Tuesday, March 12.

Governor Durbin has signed the bill passed by the Indiana legislature amending the law relative to filling semi-annual statements by insurance companies, so that only annual statements will hereafter be required. But one issue of agents' licenses a year will be demanded instead of twice, as under the present law. Companies will be required to file semi-annual tax statements as before.

Admits "Blacklist" Existence.

Milwaukee, Wis., March 12.—William G. Lloyd, secretary of the meat dealers' combine in Milwaukee, was examined before Court Commissioner Harper. Lloyd made a practical admission of the organization of the wholesalers and of the existence of a "blacklist." He gave the names of the firms in the combine as Armour & Co., Swift & Company, Swartzschild & Sulzberger, Cudahy Bros., the Plankinton company, F. C. Gross & Bros., and the Bodden company.

Pick Names for Tablets.

Cambridge, Mass., March 12.—The committee of undergraduates and graduates of the Harvard union has selected ten names for memorial tablets in the hall of the new university club building. The names are: John Adams, 1755; James Russell Lowell, 1838; Louis Agassiz, 1840; Ralph Waldo Emerson, 1821; Joseph Warren, 1759; Cotton Mather, 1678; Joseph Story, 1798; Benjamin Pierce, 1829; Edward Everett, 1811; Asa Gray, 1844; Charles Sumner, 1830; and Henry Dunster, the first president of Harvard college.

Blizzard in the Northwest.

St. Paul, Minn., March 12.—Although in this city but a slight quantity of snow has fallen, dispatches report a bad blizzard raging throughout a portion of the Dakotas, Minnesota and Wisconsin.

Cumberland, Wis., March 12.—The worst blizzard for years is raging. A heavy snow is falling, which is drifting badly and blocking roads. The temperature has fallen 50 degrees.

Importing Japanese Miners.

Denver, Col., March 12.—It is announced here that the Colorado Fuel and Iron company is importing Japanese miners to fill the places of strikers in their New Mexico mines. Forty have arrived at Gallup, it is said, and 200 more are expected within a few days. It is stated that the company will also employ Japanese to work in Colorado. They are brought from the Pacific coast.

Boy Murders His Rival.

Chicago, March 12.—Before the eyes of his companions and his priest, Frank Wisinski, 16 years old, shot and instantly killed Thomas Laczowski, 15 years old, on the steps of St. Stanislaus' school, Bradley and Noble streets. The murder was the result of a feud between rival gangs of boys in the neighborhood.

Killed in a Train Wreck.

Chicago, March 12.—A rear-end collision between a time freight and stock train on the Northwestern road at Arlington Heights killed two men, probably fatally injured three, hurt six more, and prevented hundreds of suburbanites from reaching the city and their business offices. The dead are: Otto Schmidt, stockman, Palatine; leg amputated and injured internally; died at the house of his brother, "Guest" Block, stockman, Johnson Creek, Wis.

Death of C. T. Gorham.

Marshall, Mich., March 12.—The Hon. C. T. Gorham, minister to The Hague under President Grant and assistant secretary of the interior under Zachariah Chandler, died at his residence in this city from paralysis. Mr. Gorham, who was 89 years of age, was one of the oldest bankers in Michigan.

South Bend Editor Dead.

South Bend, Ind., March 12.—Ralph Tarbell, 45 years old, for many years one of the owners of the South Bend Tribune, is dead at Los Angeles, Cal. He went there several months ago, following years of poor health from a complication of troubles.

Find Elmer Clark Not Guilty.

Petersburg, Ill., March 12.—The jury has returned a verdict finding Elmer E. Clark not guilty of the murder of Harry L. Ball, in March, 1900. The verdict seems to give general satisfaction here.

Old Brokerage Firm Assigns.

St. Louis, Mo., March 12.—Gaylord, Blessing & Co., one of the oldest brokerage firms in this city, have filed a deed of assignment. Liabilities are admitted to exceed the assets by \$50,000.

Republican City Convention.

The republican city convention will be held at the council chamber in the city of Janesville on Thursday, March 21st, 1901, at 2 o'clock p. m., to nominate candidates to be voted for at the ensuing municipal election and to elect a city committee.

Warrant for Mr. Mansfield.

Philadelphia, Pa., March 12.—Civil and criminal proceedings were instituted here against Richard Mansfield by John Rogers, a "super," who alleges that during last night's performance of "King Henry V." at the Walnut Street theater, Mr. Mansfield violently struck him on the head with a spear in the second act. In the civil suit Rogers claims \$5,000 damages and a capias was placed in the sheriff's hands. Mr. Mansfield's representative says the suits have been withdrawn. He would not admit that any money had been paid the injured "super," though it was reported Rogers had received from \$200 to \$500 to withdraw proceedings.

BAD BLOOD, BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with the proper action of the skin.

To have a smooth, soft skin, free from all eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove permanently the ugly blotches and the red, disfiguring pimples.

External vigilance is the price of a beautiful complexion when such remedies are relied on.

Mr. H. T. Shobe, 2704 Lucas Avenue, St. Louis, Mo., says: "My daughter was afflicted for years with a disfiguring eruption on her face, which resisted all treatment. She was taken to two celebrated health springs, but received no benefit. Many medicines were prescribed, but without result, until we decided to try S. S. S. and by the time the first bottle was finished the eruption began to disappear. A dozen bottles cured her completely and left her skin perfectly smooth. She is now seventeen years old and not a sign of the embarrassing disease has ever returned."

S. S. S. is a positive, unfailing cure for the worst forms of skin troubles. It is the greatest of all blood purifiers, and the only one guaranteed purely vegetable.

Bad blood makes bad complexions.

SSS purifies and invigorates the old and makes new, rich blood that nourishes the body and keeps the skin active and healthy and in proper condition to perform its part towards carrying off the impurities from the body.
